

BAS4B 4" ACTIVE BOOKSHELF SPEAKERS

ENGINEERED FOR ACCURATE AUDIO REPRODUCTION

These active computer and studio monitor speakers are bi-amplified and have an integrated electronic cross-over for a better signal to noise ratio and lower total harmonic and intermodulation distortion. Making the BAS4B ideal for studio monitor for professional mixing consoles, computer audio interfaces, audio visual equipment, and consumer audio systems. The BAS4B features a Kevlar® Aramid 4" driver, delivering unparalleled punch in the low-mid frequency - a major improvement over the paper and polypropylene drivers used in many comparable products.
