

HDC6PRO/LITE HDMI OVER CAT6 WITH IR

HDC6PRO

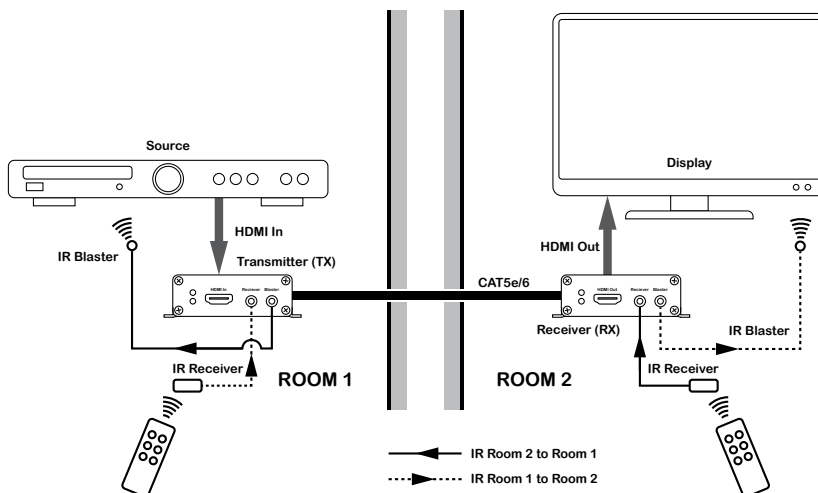

HDC6LITE

Transmit high-quality, 3D HDMI video over a single economical CAT6 cable!

Pro.2's HDC6PRO and HDC6LITE Extenders with Bi-directional IR features HDBaseT Technology and it's able to deliver uncompressed Full HD video and audio signals up to 100 metres via one Cat5e/Cat6 cable. The two models support Bi-directional IR and 3D formats and resolutions up to 1080p. DVI-D Computer video can also be transmitted with a DVI-to-HDMI cable. With Bi-directional IR, you can control all devices in the system no matter which room you're in!
