

SOLDER-LESS, CRIMP CONNECTOR DIY HDMI CABLE KIT ALLOWS YOU TO CREATE CUSTOM LENGTH HDMI CABLES – PERFECT FOR ON-SITE INSTALLATIONS. FIT AND INSTALL HDMI CABLES WHERE THE CONNECTOR WOULD USUALLY NOT FIT – OR WHERE OVERSIZED CABLES ARE UNSIGHTLY AND CANNOT BE HIDDEN.

Simple crimp connector allows quick and professional finish without the worry of soldering small wires. Wire guides and crimping jig takes the hassle out of managing wires and helps avoid mistakes. Furthermore, our solder-less crimp connection has better impedance performance than other crimped connectors or typical solder pin connections, resulting in a close to perfect 100Ω impedance match and better performance!

- Stylish, professional connector design
- Enough connectors to create up to 10 cables!
- Patented and innovative crimping tool – self trimming ensures perfect wire fit
- Wire guides for every connector
- Crimping jig ensures hassle-free, accurate crimping everytime
- Kit includes a sophisticated HDMI cable tester
- Carry case contains all tools and parts for easy transport
- A massive 100m of cable is supplied with the kit

Wire guides and crimping jig ensures hassle-free crimping everytime! Stylish connector gives professional appearance.

Our crimp connector has better impedance response than most other connectors – near 100 Ohm impedance!

Model: HDMI DIY

Order Code: 52645085

KIT CONTENTS

- 20x HDMI Solder-less connectors (PR2300)
Each connector includes:
 - ↳ 2x Wire guides
 - ↳ 1x Gold Plated HDMI Connector
 - ↳ 1x Top Die-cast Metal Shell
 - ↳ 1x Bottom Die-cast Metal Shell (incl metal belt+screws for cable strain relief)
 - ↳ 2x Screws
- 1x Crimping Tool (HD901-31)
- 1x Crimping Guide Jig
- 1x HDMI Portable Cable Tester (HD901-36)
- 1x Carry case (HD901-37)
- 100 metre roll of HDMI Cable (HDMIDR-100M)
 - ↳ 26AWG

Kit comes in a handy carry case that neatly contains all the parts and tools required to build your own HDMI cables.

Patented crimper and jig design!
