

# HOTLINKXL

## IR REMOTE CONTROL CAT5 EXTENDER

**Order Code:** 37169730

**Model:** HOTLINKXL

**EXTEND IR UP TO 60m**

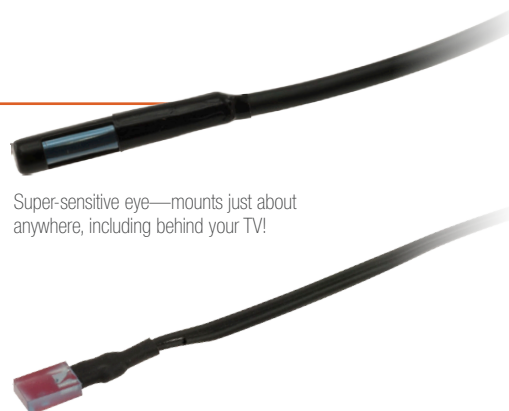

If your AV equipment is housed behind an opaque cabinet door or in a closet, IR remote signals will not be able to reach it. Hot Link Pro solves this problem by routing the IR signals into the closed cabinet or closet.

This allows you to keep equipment out-of-sight and out-of-reach of inquisitive little fingers, dust, and dirt. The high sensitivity of the Hot Link Pro receiver can also extend the range of your remotes without visible sensors.

### features

- Extend IR signals between rooms up to 60m over CAT5 cable
- Super-Compatible— works with virtually all Plasma and LCD TVs, satellite and cable receivers and other AV gear
- Super-sensitive IR Eye can be mounted anywhere—even BEHIND your TV!
- IR Receiver / Eye cable (1.8m) can be extended up to 5m with RG6 cable
- Discrete blue confirmation LED
- 6x Emitters with clear self-adhesive
- 2m long IR emitter leads

Super-sensitive eye—mounts just about anywhere, including behind your TV!

Blue confirmation LED indicates reception of IR signal—great for positioning IR eye!
