

This lockable security case is made from durable and light-weight aluminium. You can fit any size iPad (except Mini) for safe and secure display or use. Features rear cutouts for cables to enter and exit the case without hindering closing the case. Also features cut-outs for the camera and the home button, as well as a small grill so audio output is not muffled.

#### Features:

- Fits all iPad models (except iPad Mini)
- Solid and durable aircraft-grade aluminium construction
- "Radio transparent" allowing Wi-Fi, Bluetooth and 3G to remain fully functional
- Tubular lock with 2 keys
- Power and Volume buttons are protected from tampering
- Cut-outs for power cable, audio, extra security cable, and credit-card scanner adaptor (not included)
- Can accommodate an additional cable lock for added security
- Black coloured powder coating
- Standard 100x100 and 75x75 VESA mounting holes

#### LOCKMT Mount for IPDLOCK

For mounting the IPDLOCK to table top or wall, the LOCKMT Bracket provides a clean and sturdy mounting solution. No fixing hardware is included so your choice of tamper-proof fixings can be used.
