

PRO1338 2X4 VGA & AUDIO MATRIX

Brand: PRO2

Model: PRO1338

Code: 00760652

Warranty: 12 months

The PRO1338 VGA Matrix is perfect for larger installations where multiple displays or projectors are required. Each of the four outputs can independently display either of the two inputs. Perfect for classroom and demonstration rooms, conferences and houses of worship, and even restaurant or shop displays! Great for huge impact in large environments using up to 4x projectors or for small conference rooms where several small monitors can be used.

Bars, clubs and function spaces can benefit from the flexible distribution of independent video and audio sources depending on the size of the function -- small functions may only require one projector while the remaining three outputs can display advertisements or sports throughout the rest of the venue!

Features

- Allows two VGA source devices to provide video and audio to four displays / projectors.
- Front panel selection buttons.
- Each output can be set to input A or B
- Blue LED Indicator for PC Online
- Video and Audio can be cascaded
