

# iBATTERY IPHONE PORTABLE CHARGER

**Order Code:** 43075600

**Warranty:** 12 months

### Power on

The blue LED lights up when the iBATTERY is active

The iBATTERY is the perfect solution to charge your 3G or 3G S iPhone when out and about with this portable power station. With its built-in high capacity Li-Polymer battery you don't have to worry about running out of power on your iPhone. When not in use, simply plug the iBATTERY to your computer and let it charge.

- Built-in 1900mAh Li-Polymer battery
- Unique design; very simple and convenient to carry
- You can still use all of the iPhone's functions with it while it's powering your device!

### Specification:

- Suits iPhone 3G and 3GS
- Material: high quality rubber
- Real Capacity: 1900mAh Li-Polymer built in cell battery
- Dimension: 113 x 66 x 21 mm
- Weight: 66.5g

### Micro USB

At the bottom there's an industry standard Micro-USB port to charge from your PC as well as an On/Off switch.

**1**

### Step 1. Charge

Connect the iBATTERY to a desktop PC, laptop or USB wall charger and leave it to charge!

**2**

### Step 2. Carry

Keep the iBATTERY with you in your hand bag, back pack etc.

**3**

### Step 3. Enjoy

If your iPhone is running out of juice, just slot it in the iBATTERY and you are good to!
